Maputo.
MOZAMBIQUE.

Dear Comrade Maleka,
Re: ANC Health conference

You will no doubt have received communication from Comrade Manto in connection with the Conference of the ANC Health Department scheduled for 24th December. we would like to inform you that there has been a slight shift on the date. The conference is nob'scheduled to take place from January 2nd, 1980.

we have already informed the Treasury and they are ready to provide a single return ticket for a delegate from the Maputo Health Team. We would be pleased if you could send us the name of your delegate as soon as you can to facilitate travel and clearance arrangements.

He also take this Opportunity to acknowledge receipt of the report sent by your representative from the Maputo to the Norway First Aid Training Course. It seems to have covered quite some useful ground for such a limited period. we hope our Team will benefit from her experiences.

We are rather perturbed that our delegation took a negative attitude towards mobilisation of Norwegian public Opinion in support of our struggle. We had rather assumed that the comrades understand it as a bounden duty of every congressite to spread the message wherever possible using pseudonyms where necessary.

With respect to the delegation expected to visit Africa, we think you can work out a programme of a visit to our civilian clinic and also prepare a list of your requirements. we should oyecourse receive a copy of your requi-

sition in order to ensure endorsement by the Treasury.

We hope you had occasion to exchange views with Comrade Manto during her short visit. With respect to the bigger project to be undertaken with the cooperation of the Mozambican Ministry of Health, we hope to be able to discuss the finer details during the Health Conference in January.

With comradely Greetings.

Amandla! Maatla! Power!!
