Dear Friends,

We wish to acknowledge with thanks your letter dated July 9, 1987 in which you requested us to forward your organisation with funding proposals for our medical projects.

We appreciate your concern for the health and health care of the people of Southern Africa which we the women of South Africa under the ANC are part of.

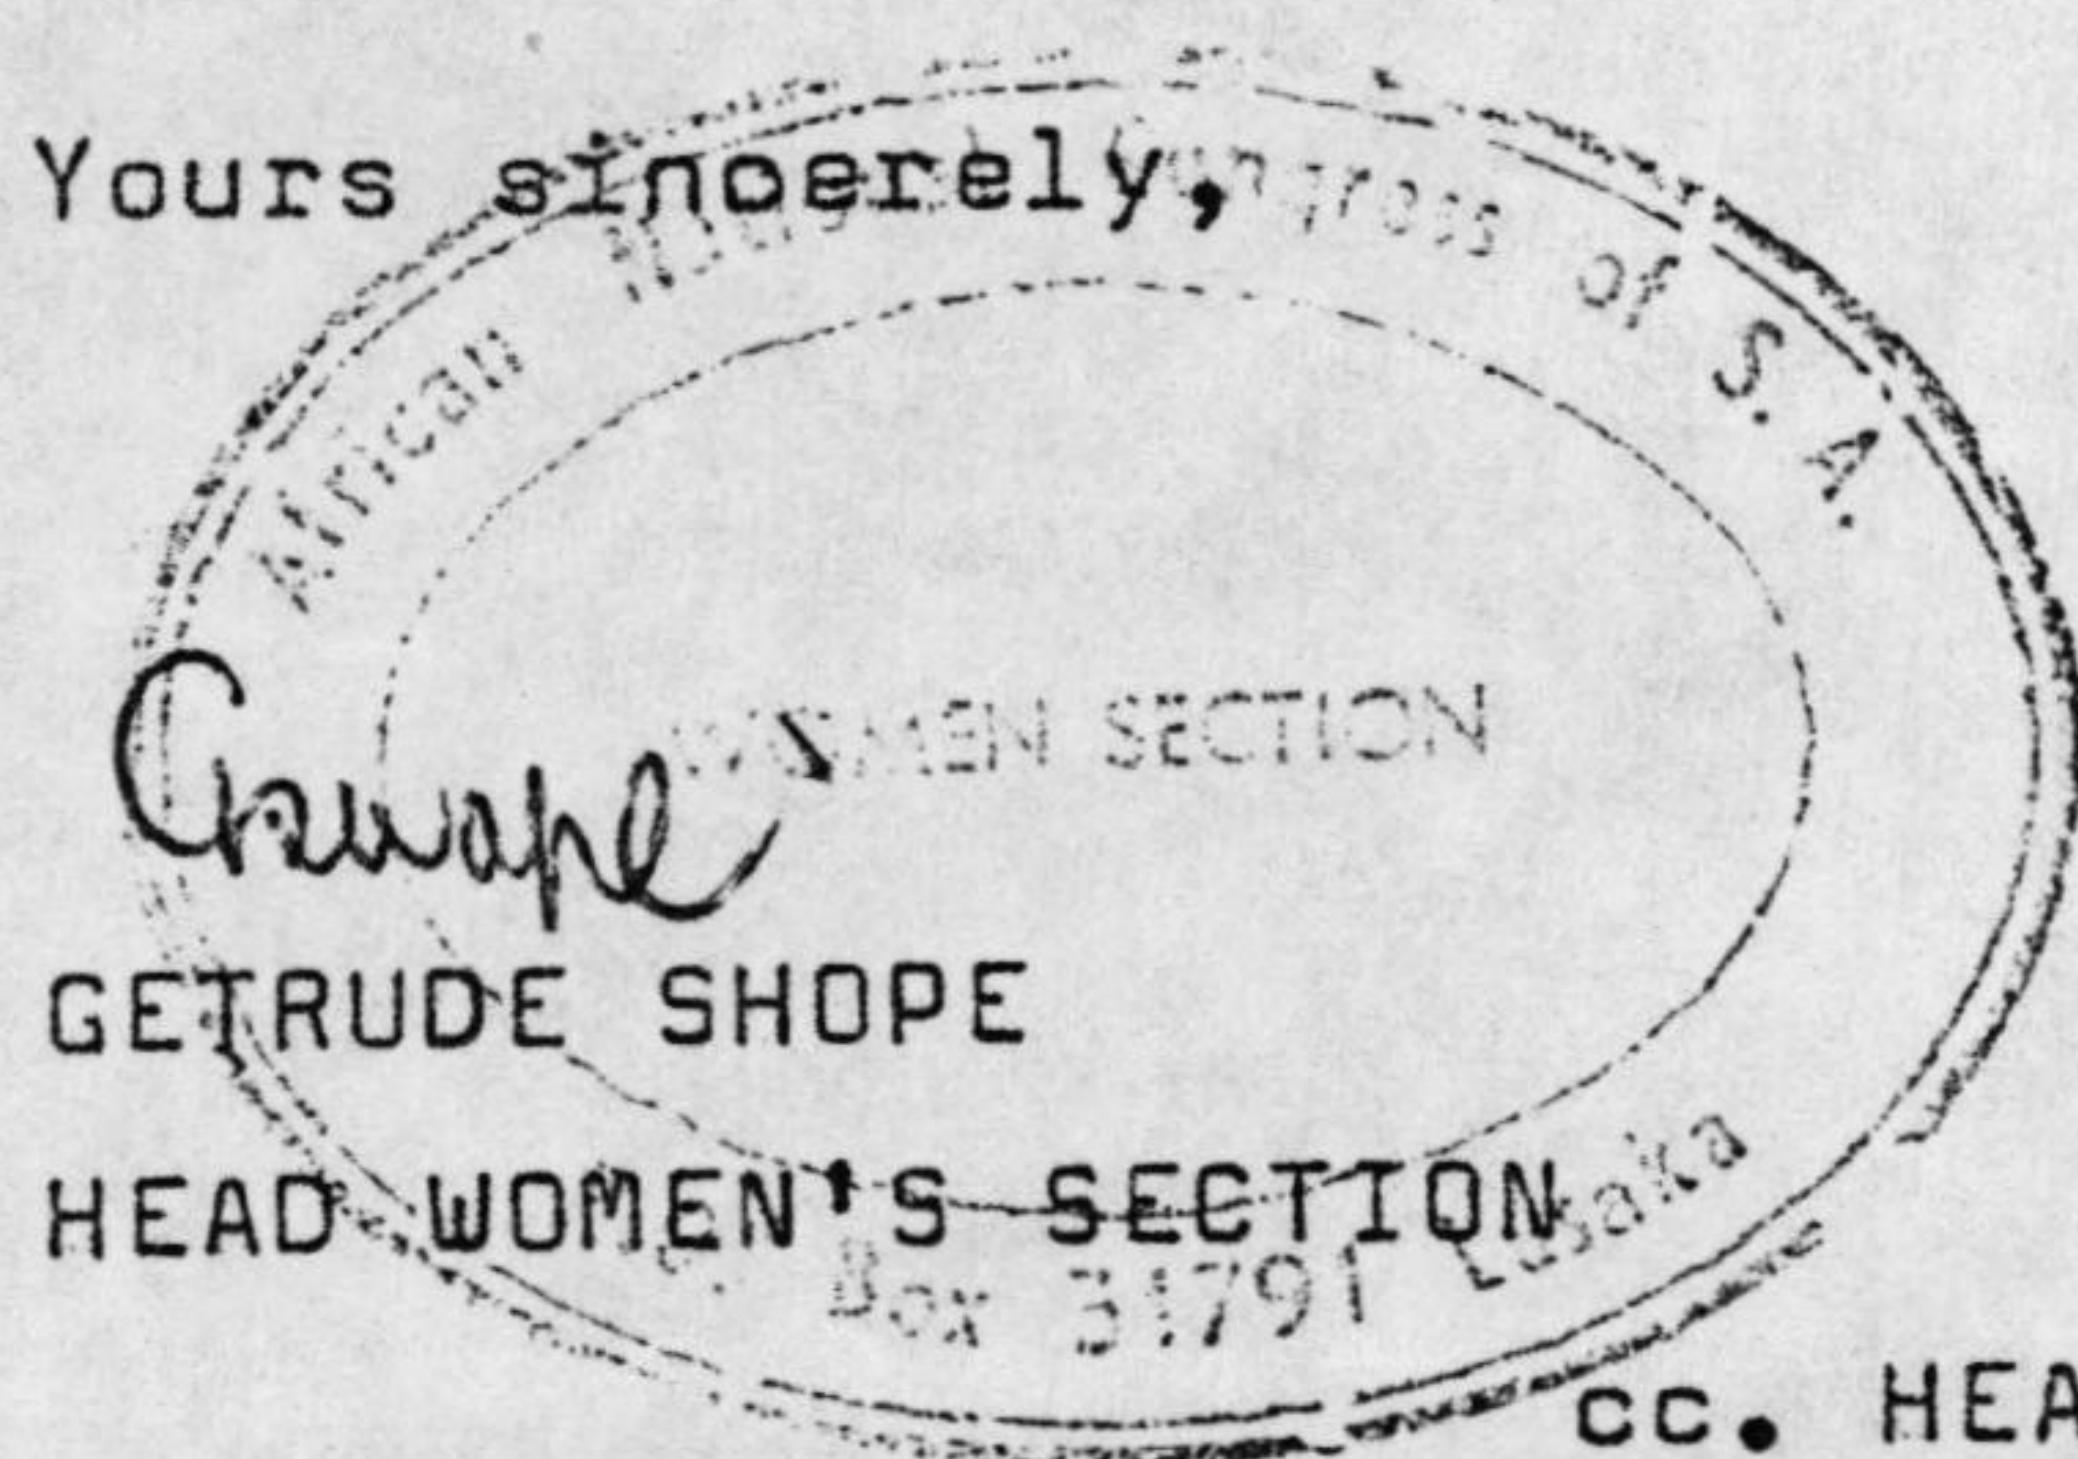

Our Secretariat has thus discussed your letter with the ANC Health Secretariat to whom you had also send a copy. They are the correct department of our movement to forward you with specific medical project proposals as they deal with the health of the whole community including of course women and children. The Women's Section can always make its input for the specific health needs of women and children.

We look forward to meeting your delegation when you visit Lusaka in November. The ANC Health Secretariat will decide on arrangements for you to visit our medical projects.

Thank you once again for your concern and willingness to contribute towards the struggle of our people for peace and justice.

Yours sincerely,

cc. HEALTH SECRETARIAT.

Enclosed please find a list of requirements from the Department of Health.
