the problem still remained to be solved whether our people had to be in town or at a base, he said* he demanded to know the 'follow-up to our 'decision' in favour of the closure of the Randeree Residence.

Mkeba: proposed that we examine the nature of the problem first in order to arrive at the correct solution. He wanted to know what plans the authorities had about expelled comrades because many 'so-called members' were still condoning the action of the expelled.

TT: said that the prestige of the organisation was on the decline in Lusaka and although the authorities were not in a hurry to act

Something must be done to put our own house in order. For instance the cooking programme was chaotic in Lilanda although adequate supplies were always at hand. Also comrades who had been given study facilities were now demanding money to travel up and down to their newly found places of study in town,

BB: said the drawback was in taking decisions and not following them up. It had been decided to transfer our* comrades in town to some residence about twenty miles from town. There was also an urgent need for classifying our comrades, he said.

Dingo; expressed concern that the meeting scheduled to take place around

Jan. 8th* had not materialised. He also came out in support of alternate avenues to accommodate those of our comrades who had got themselves mixed up with the Be^e Ball affair.
