Dear Comrades

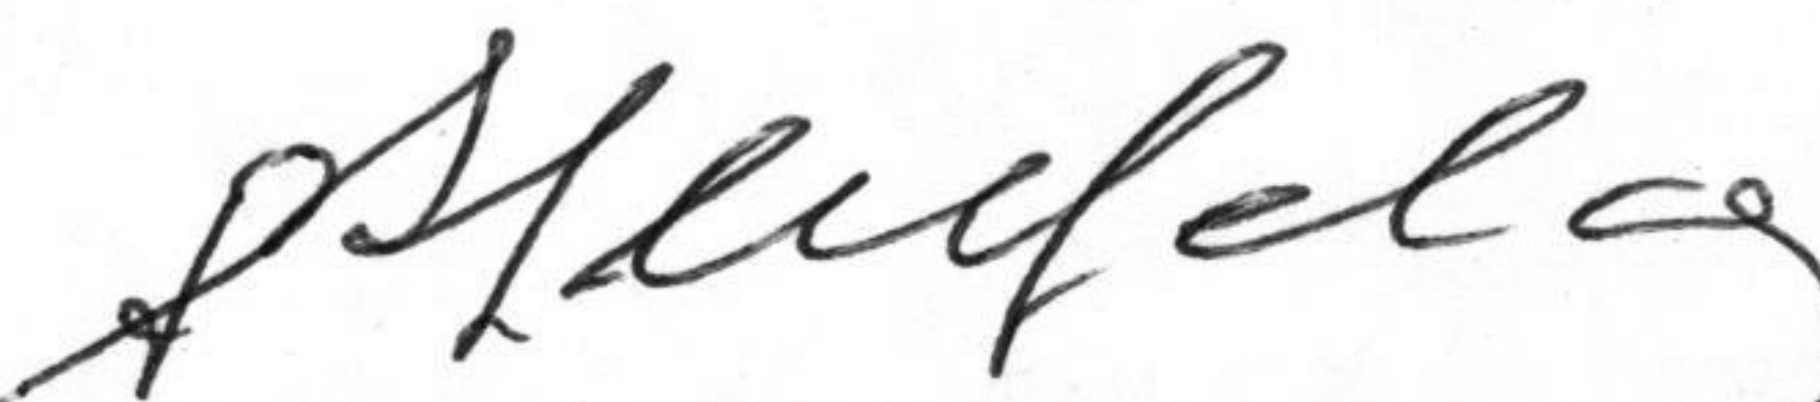

This letter is to remind you that we do not have teachers in the following subjects.

1. Laboratory Technique and
2. Pharmacology.

The above subjects should be started soon. Dr Bob Mayekiso is not in a position to help us out in Pharmacology as he did in the last academic year.

As for Laboratory Technique the Health Secretariat had promised to look into this question at our last C.D.C meeting.

Awaiting your reply in the year of united action to peoples power.
