MESSAGE -

Dear Sir,

Thank you for your fax, and we take note of your thoughts and the
response of the Deputy Minister.

If Dassault Aircrafts are known to be high cost, we can insist that
irrespective of their technical superiority and their spacious
conveniences, they are not more expensive and the same concerning
the spare parts.

We can assure that great facilities will be given involving the deal
we are interested in.

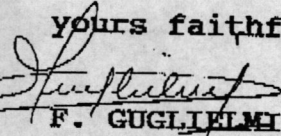

We don't see any inconvenient to study the possibility to provide the
aircraft on a long term lease.

Referring other fields to assist the RDP Programme in form of counter
trade, there again we can help through various companies, providing
we are presented with specifics projects.

Thanking you for your help, we hope to have a fruitful relationship
in the future.

Best regards.

yours faithfully

F. GUGLIELMI
