To my brothers in the struggle 1

I am a student at Atlanta University in Atlanta, Georgia, and am presently studying liberation movements in southern Africa. I am placing particular emphasis on A.N.C., and decided to write to request any pertinent available information/materials from your office, and any suggested books to consult. I have found information about the early years of A.N.C., however information from about 1982 to the present time is hard to locate.

Because I intend to present a succinct lecture on ANC I would appreciate a prompt reply. My address is
