Dear Mr. Schoon,

Thank you for your letter dated the 29th June
together with information on SOMAFCO.

I apologise for the delay in replying but we have been diverted from our
regular activities by a General Election, obtaining our largest ever
majority. Sadly the same could not be said for many places elsewhere.

I have been instructed by the Wigan SEA branch members to write to you
to ask you to specify any educational videos which will be of use to
you. For instance , do you want videos for the primary or secondary
sector?, do you want them for the children to watch or aimed at teachers
of those particular age groups? and which subjects would be of greatest
value ?

If you can let us know your requirements it would be our intention to
send them to you on a regular basis, say 6 per year (money permitting,)

I look forward to hearing from you.

Yours sincerely

Joan Pye (Mrs)

Secretary.
