O
 W
 The ANC has astablished an education complex in Tanzania.This is
 generally referred to as the Soloman Mahlangu Froedan Collage (SOKAFCO).
 It includes nursery, primary. secondary and adult education sectorl.
 Our basic objectives are to give an all-round education of a high
 standard which will equip our students ta serve their people both
 new and in the future.The school is open to all South Afrioahn who
 broadly accept the policy and abnootivoa er the ABI.
 The Secondary sahnol goes up to form V.The tatal roll in all sectors
 is'about 500.The Dakawa development centre and the ABC community in
 general also make some use of 30%AFCO reaouroea and faeillities.
 Almost all resources havg to obtained from " develeped"ceuntrlea,as
 there is very little available locally or in neighbouring atataa.We
 depend almost entirely on international sugport.

2 H P- b e Ad th P 6
 Apart from a general shortage of teaching materials in many departments,
 there is a specific need to obtain materials tram aouthern Africa.-
 8) East of our syllabi require Sou\$hern Africa to be studiaa in depth:
 eg., History,Geography.Agriculture.In particular. we mugt have a
 wide range of reference material from south Africa, as well an olaaa
 sets of Literature and other textbooks.
 6MWT5KD T0 50 65? /733

b) Despite political repression, various groups in S.A. are producing excellent, progressive and culturally relaxing material, eg., for adult education.

c) We need material in the different languages of S.A., eg., Sotho, Zulu, Xhosa, etc.

d) It is vital to keep our students and community in tune with South Africa politically and culturally.

6) It is often quicker to get urgently needed books via the Frankfurt line state than via Europe.

Song books have been obtained from Botswana and Swaziland on an ad hoc basis. Others were ordered in Europe and then posted to us. We are making very good use of 33311 books received, especially in History and English. Most books came from Ravan Press, Mankweng, Bolewa and SACHED (South African Council for Higher Education). Ravan Press and SACHED also produce excellent magazines. Further attempts to obtain more material have been held up by lack of funds; hence the idea of submitting this project.

This could best be done by the funding agency which has offices in the 4g Front-line states involved in the project : Tanzania, Zambia, Botswana, and possibly S'azilang and Zimbabwe. Payment could be made through (angxga the office of the agency, which could also assist in transportation, together with the office in Zambia and / or Tanzania. The office in Zambia could coordinate with the relevant ARC structures there. In general, implementation by such an agency in cooperation with the relevant ANC structure would greatly assist in communication. (see Part 0)

PROJECT DESCRIPTION

To provide SOKAFCO with urgently needed educational material which is only available in Southern Africa. This includes books, magazines, maps and other teaching aids.

These would be all the students in the nursery,primary,secondary and adult education sectors.as well as the community in general and Dakawa. ewemasculiaallimazaommmrmnmunemmnps qnauynbrary open to all .)
