Dear Comrade Mabizela

Re: Redeployment of Jerry & Vusi Sithole to the London office

Last month we received a telex from Lusaka confirming the release of Cde Jerry Sithole from the Department of Education for redeployment to our London mission together with her husband. This also required the release of Cde Vusi from the Mazimbu administration, where he was attached to our local information and publicity department. In our last meeting with the two comrades, I also granted him his release.

I therefore request that you facilitate the necessary required formalities with our London office through Cde Gill Marcus to expedite their travelling arrangements. The two comrades are to be deployed with our DIP News Briefing section and their skills are most urgently required by that department.

Thanking you for your assistance in this matter.
