Subject: Archives MF project

Dear toine,

On behalf of Ellen, I am responsible for organising the short visit concerning the Archives MF project. Faced with the list and the wishes, I have two questions.

1. I came to belief there is a special interest for photo and video archives. Specific insitutes concerned with archiving these are however not metioned in you list of favourites. Therefore, my question: Are visits to such institutes (Photoarchive, Netherlands Audiovisual Archives, etc) wanted?
2. Would a visit to the vocational school for library, documantation and informationmanagement be of interest?

These questions are important since the schedule is tight due to the short stay of the delegation. A choice for a certain institute necessarily means leaving out an other.

Since there is not much time left to organise the mini-tour, I would be most obliged if you could reply as instantaneously as possible.

Kinds regards,
Micha Hollestelle
