Ode. Titus Mashaba
Transport Department
LUSAKA

Dear Comrade,.1

I acknowledge, with thanks, receipt of your letter of
November_7,1989 requesting our office to furnish you with
information re transport under our office.Â»

The President's Office has three (3) cars:

1. A Volkswagen 1100. This car is three

years old and has done 110 000 km.

2. A Volkswagen 758. This car was used in

in Botswana and has covered 135 619 km. We

have to take it to the workshop every week.

We need a replacement as its condition affects

our work.

.

.8

I

V.

1. LAUREL AAH 1029. One can say this car is not

roadworthy and the workshop has failed to fix

it. It is more at the workshop than with me. It

needs to be replaced.

We have already put in a requisition for two cars to

replace the Conquest and the Laurel.

Presently the Laurel is at Alpha for repairs. We have

two damaged cars. In reality the Conquest and Laurel were given

to us on loan as the President's Office had only one car; ,

2....f

We hope you will be able to assist this office.

Yours in the struggle,

ANTHONY MONGALO
SECRETARY FOR PRESIDENTIAL AFFAIRS
