Dear Friends,

In respect of your Project No. AZ 705-10-09/3-1 regarding the Contract signed on 10th November 1983, we agree with the formula worked out between the ANC and the Bremen Government.

We value greatly the support we have received from the Bremen Government. It has helped us to become more self-sufficient. We appreciate even more the moral and political support of the people of Bremen for our struggle for Liberation. It is our fervent hope that more support will be forthcoming since our Projects at Mazimbu and Dakawa are expanding rapidly as more of our people are leaving South Africa to escape from army and police brutality.

With sincere thanks and regards,

Yours sincerely,
