Dear Sir/Madam,

I am a student at Royal St. George's College in Toronto and have chosen to do a project in Modern World History (Ontario Academic Credit Course) on the history and effects of apartheid on the Republic of South Africa.

If you have any resources, pamphlets, etc. discussing Apartheid and what the African National Congress would like to see done to change the situation in South Africa that might prove helpful to my project, I would appreciate your sending such information to my above address. I should also be grateful if you could give me any information concerning the history of the ANC as this would prove very helpful.

My thanks for your kind cooperation in this matter.

Yours truly,

Nicholas S. Blanchette
