The Rector
Eduardo Mondlane University
MAPUTO

Dear comrade Rector,

Following on a fundamental review of the position of the A.N.C. students at the Eduardo Mondlane University, and guided by the Secretary General of our organisation who has been in Maputo, we yesterday held a meeting with the students and informed them of the following.

The A.N.C. was withdrawing a number of students from Maputo on grounds of their lack of preparation, misbehaviour or a combination of both. The withdrawal is to take place as soon as possible. Some of the remaining students were given serious warning.

The students who are being withdrawn are:-

- ✓ BONGANI RADEBE - Health (diabetes) and lack of preparation.
- ✓ MOSES TLOOME - Lack of preparation.
- ✓ THABO MOFOKENG - Lack of preparation and misbehaviour.
- ✓ OSBORNE DLADLA - Lack of preparation and misbehaviour.
- ✓ GRACE LEBOOA - Lack of preparation and misbehaviour.
- ✓ PUMLA MABUYA - Lack of seriousness about studies and inappropriate life style.
- ✓ LULAMA MNUMZANA - Lack of seriousness about studies and inappropriate life style.
- ✓ PAPA MOGALE - Lack of seriousness about studies, misbehaviour
- ✓ ZAMA MVUSI - Misbehaviour
- ✓ LINEO MAKOA - Misbehaviour

We regret very much that the facilities of the University have been taken up by persons who have failed to measure up to the standard expected by Prelimo and by the A.N.C. Our youth have an honourable tradition of courage and seriousness, and we expect A.N.C. students here to conduct themselves within that tradition.

We look forward to the appropriate authorities at the University keeping us informed of ~~anyxprabax~~ any problems that might arise with the students who remain.

With regard to registration of the students who continue, the position is as follows:-

- ✓ THOMAS NDHLELA - has registered for 2nd year Economics
- ✓ MOLEBOGE MACHELE - has registered for 2nd year Letras
- ✓ KARABO LETELE - continues with 1st year Engeneering
- ✓ CHRIS MZWANDILE MANDUBU - would like to register for law
- ✓ BEN MOKOENA, JAMES MAKHETHA, BERNARD MUSI, and ENOS
- / NGUTSHANA register for the preparatory course (science)

It would please us very much if Ben Mokoena and James Makhetha could be registered for the one year pre-university course, and Bernard Musi and Enos Ngutshana for the two year course. Ben Mokoena and James Makhetha we know to be very serious students, and Ben Mokoena in particular has high political consciousness. BOTH were making good ~~pragrd~~ progress last year when Ben unfortunately contracted a serious skin ailment, and James had serious problems with his eyesight. We are confident of their academic abilities and general seriousness.

Should you require further information, please let us know. We thank you for the support you have always given us and look forward to continued co-operation

Yours in the ~~str~~ struggle,

Jacob Zuma
Deputy Representative.

Dear Sir/Madam,

RE: South African Students on U.N. Scholarship
at the Eduardo Mondlane University.

Dear comrade Mendy,

RE: Student Situation (MAPUTO)

We would like to inform you that a meeting was held here (MAPUTO) between the Secretary-General, the Counselling Committee and the representation (MAPUTO) on the current (student) developments amongst the students. On this subject matter, a decision was taken wherein ten (10) of the students were to be withdrawn from the University on varying reasons.

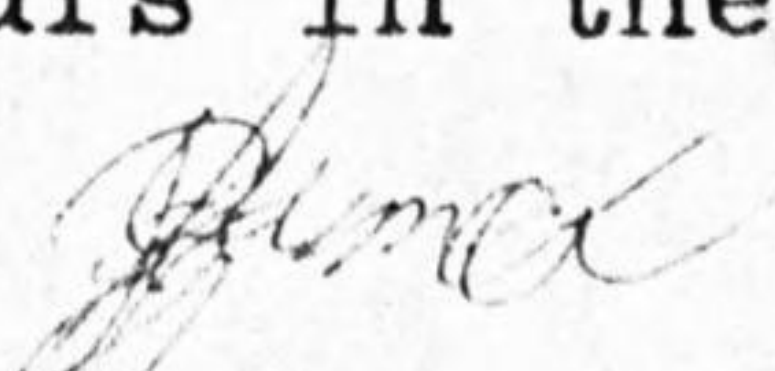

On this matter we didn't communicate with you directly due to the directives from the Headquarters, that all communication be first directed to them. However, since the students are coming
.... to Tanzania; we herein enclose a duplicated copy of the report
.... with an aim to enlighten the Education Committee who are going to
.... handle the student situation in Tanzania. We also enclose these reports because to a limited extent, they indicate our feelings and suggestions which deal with student situation in Tanzania.

... We further enclose duplicated copies sent to the Rector of the University and to UNESCO (Maputo). The Rector was officially informed of the withdrawal of the students from the university. Tickets requisition was made with UNESCO and has granted them as such.

We would further like to inform you that UNESCO (Maputo) is going to instruct the UNDP (Tanzania) to pay the students of ~~their~~ their respective allowances which they could not receive here.

We regret of the situation that has occurred, we hope that in the future things will come well.

Yours in the struggle,

Jacob Zuma
Deputy Representative.

Dear comrade,

After the meeting we held with you, we immediately began the process of sifting the students and the sifting resulted in ten (10) students being withdrawn from the University.

Following this, a report was sent to your office as we agreed with you that it should be sent as soon as possible to the H.Q. and the students were duly informed about the decision.

...

Enclosed herein are the copies of the letters written to:- a) The Rector informing him of the withdrawal of the ten students.

b) A letter to UNESCO requesting ten tickets.

c) A letter to comrade M. Msimang.

UNESCO responded and gave us the said tickets.

After the decision was communicated to the students, the President and the commissar (Dilinga) interviewed the students. The commissar saw all of them except Bongani Radebe who was ~~xi~~ still in Lusaka at the time. He saw them individually and as a group.

In a short meeting held between the President, commissar and myself (Zuma) I suggested that the commissar after seeing the students, should see the Counselling Committee together with the office representation, the University administration and the Rector so that he should have a complete

picture of the situation.

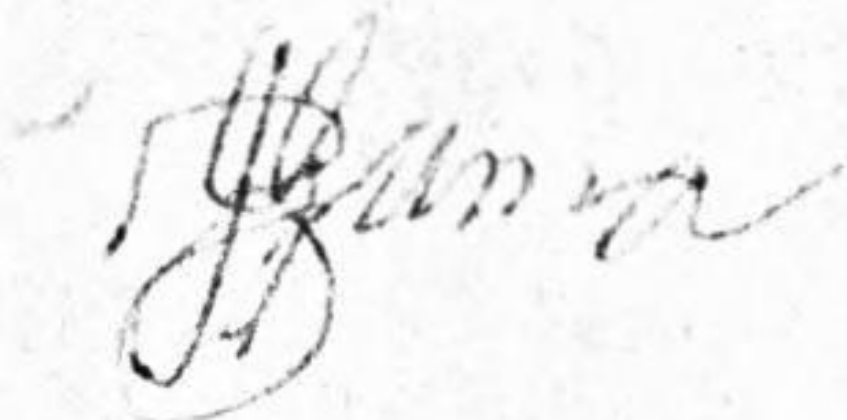

Indeed, after seeing the students he saw the Counselling Committee together with the office representation. That meeting did not change the original position taken on the sifting of the students. But the commissar made some general comments on a few students.

When asked by the commissar as to whether they wanted to leave Maputo or not, all of them individually told him (commissar) that they wanted to leave Maputo.

The University people (authorities) that we have so far contacted on this question have appreciated our decision. We are still continuing some discussions with them.

On the 20/3/79 eight students left Maputo for Dar es Salaam. Among them, two have impregnated two girls here in Maputo. One of the two by the name of Osborne Dladla ... wants to marry the girl. Find herein enclosed a letter he has written to you informing you of his situation and in a way applying for marriage. Thabo Mofokeng, the second one will write to you from Tanzania about his situation.

Jacob Zuma,
Deputy Representative.
