MINUTES OF THE TRANSPORT
OMEITTEE HSETING HELD ON THE 15th
rs)
\$0
OCTOBER 1982. AT MANZINI swAZILAND. E:
' N
PRESENT: CDES. Baartman Q
Ntsibande 5
Marwick
Sipho Cf
In this meeting the Transport Committee was formed in the presence
of the chairman of logistics with the following members:-
CDES. Ntsibande - Chairman
Sipho - Secretary
Marwick
Since the Transport Committee is a subunit of the Department of
Logistics the members of the Transport Committee are also
membersn of the Department of Logistics and therefore they should
be present in any meeting held by the Department of Logistics
unless there is a good reason for absence.
The chairman of the TransPort Committee gave a list of brogerties
under his committee as follows:-
1. Peugeot 504 - (SD393 JM)
2. Isuzu - (SD 187 IM)
3. CRESEDA - (SD 313 GM)
The above mentioned vehicles are in working condition and are all
on the road. Thesfollowing are out of order and the faults are
mentioned below
4. Ford Cortina - (SD 851 DH) - Touch up, painting,
battery and tyres.
5. Peugeot 404 - (SD 797 DM) - Body on fault, tyres
and engine work
6. Land Rover - (SD 902 BM)
The committee has decided that the two vwhicles - Ford Cortina and
Land Rover must be repaired for use in the region. That the
Peugeot 404 must be sold because of its condition.
The chairman of the logistics Cde. Baartman gave a report about
his meeting with the treasurer of the region (Malume) on 10/9/82
Cde, Baartman said he has reported that the only vehicle he knows
about in this region is Isuzu, which is used for everything in:
the region. He also mentioned the problem of the School Bus to
Malume, but Malume said he could not discuss it because since
there is no transport committee it is difficult to discuss any
problem concerning tranSport. Therefore he says the school bus
is also under the control of the transport committee.
Since the transport committee has now been formed, it has been
decided that all vehicles in this region with the exception of
the departments that do not fall under the RPC are under the
transport committee which is therefore responsible for these
vehicles.
Cde. Ntsibande mentioned that there is a Volks-Wagen under the
control of the chairman of the Educational Department and it
has been decided that it should be repaired for use in this
region.
It was also mentioned that there is a Ford Ferment of whieh its
engine has been taken for repairs by Cde Mabizela and since then
there/.....

- 2 _

there has been no information about it.

So the committee would like to know from the treasurer whether it should follow up the question of the Ford Ferment since it had been in the hands of people who are no longer in this region. And the report will be given of the details of the cost of repairs of this engine.

It has been decided that the transport committee should have funds for the repairs of the above-mentioned vehicles through Cde. Kosie. Therefore the committee requests the Regional Treasurer to assist it with at least a sum of RS000-00 for this work to be effected. This would make things easier for the tranSport committee to fulfill all the duties it is obliged to do.

The next meeting will be held at a date to be fixed at the end of October 1982.

The meeting was closed by the chairman.
