The Secretary,
Education Committee,
ANC of South Africa,
Dar es Salaam.
Tanzania.

Dear Comrade Linzi,

Please find enclosed herewith a copy of the "Official Notification" regarding new students. It should answer part of the question you raised in your letter of the 1st February, 1979.

Please do work out an interim programme together with the staff presently at Mazimbu. We should start now with some of the administrative aspects (proper registration, daily and weekly programmes of activity etc.).

It is practically impossible to predict the number of students we can expect. We are assured by our people at first base areas that once the idea of the school catches on, we must just be ready for a flood.

Our radio units have taken up the issue.

Amandla! Maatla!
