

RECEIVED 2 1; MAY 1986

7 May, 1986

NEC Secretariat

ANC (SA)

LUSAKA

Dear Comrac.es,

Ref: KTS

As has often been expressed before many psychiatric patients are sent to this area without medical reports or even any indication that they are mentally disturbed.

Some of these as well as some already within our community are obviously serious cases and often become violent and a danger, particularly to children.

We do not have the facilities for coping with these comrades and the Directorate firmly believes that in their best interests and in the interests of the communities of Mazimbu and DDC such comrades should be sent for treatment to the China: a hospital in Zambia.

I do hope that you will give this matter your sympathetic consideration.

In the Year of MU

Tim I- aseko

Chief Administrator
