WORLD CAMPAI GN)

cLittle to gain from nuclear pact

PREI'ORJA - SN: signing at the

Nuclear Non-Proliferation Treaty

(NP?) would not dramatically effect

it: unaltered; Nuclear Fuels

Cont of SA (Niger) CE John van Riet

Low: said at the W11

He said in an interview although

SA had not been a signatory, it had

always complied with the maunum

limits: requirement: laid down in the

treaty and it: ymhco

"000mb that wanted to do but-

m with us have done so. We have

not been materially inhibited in our

madam"

However. the signing of the treaty

would be; hnpmue SN: Image in

the nuclear 1112M which would be an

important factor k talc: volumas.

When sanctions were lifted SA

would have access to the US and

Japanese market; which together

historically accounted for about two-

thirds of SA's mineral exports.

However. even if demand for SA

uranium fell km because of the

signing of the treaty. the gain would

be small 83 the world market was

GERALD REILLY

heavy supply and production

costs In SA were substantially higher

than international prices.

Looking to Jean Shun. he said it

was clear the nuclear power senti-

ment was enjoying wide support

magnum! the world.

'11:: long-term outlook is good. but

not spectacular. Improvement in

sales; could. however. start in the m-

m-

was said to take lot of years

the m H was decided to build

the 1 nuclear power unit below the

plant became operational.

had been in the lan-

ting of new station: worldwide, at a

more realistic attitude to nuclear

power was a "good"

energy option.

In industrialised countries than

us little space left for hydro-gen-

erated power and even hydro stations

were being labelled as environmental

threats.

"In the long term there is no doubt

nuclear power will" again come in:

its own and the demand for uranium

will climb." Lane said.

So -Reuter m Calm

that "Egypt M 1% SK! deci-

sion to sign the treaty. and expects

the tap: that brat! would soon tol-

low lutt.
