RE: AZ i P B

Dear Ladies and Gentlemen,

The Azanian National Youth Unity - the mainstay of the Azanian liberation wishes to raise its concern to all participants of the " Negotiating Forum in regard to the agreements of the Constituent Assembly. : : '

What we have expected as the people of this country is that, by now there should have been progress as far as voter registration is concerned, because we feel the regime and its allies are playing a delaying tactic in order to prolong the agony of the Azanian masses. : e ' :

We therefore demand that there should be voter registration now, and a move towards the agreements on the modalities .of the Constituent Assembly. . S

If this is not done within a reasonable period of time, your forum will definitely be subjected to challenge from the youth of this country, of which peaceful means falls out.

Yours in the struggle for settler-colonial destruction.
