Dear Mr Saso,

We have, with deep appreciation, received your letter, addressed to our President Oliver Tambo, concerning the visit to Japan in April by the President.

Indeed we are fully aware of the Japanese government's policy on Southern Africa and we believe that our President's visit there will also serve to strengthen your committee's position and campaigns.

We have also received communications from the Japan AALA re this visit and also inviting a two-man ANC delegation to come to Japan in May this year. We have accepted this invitation because we feel the delegation will also further strengthen our supporters, like your committee.

We are convinced that your support for the two delegations will make their visits a success.

Best regards.

Anthony Mongalo  
Secretary in the President's Office
