Dear Comrade,

Re. Housing Office For a Motor Cycle.

The above office would like to make a requisition for a motor Bike.

The bicycle I was provided with is absolutely unmanageable, the reasons being the type of work I'm doing.

My work demands that I drive from one area to another during day-time or during the night, whether it is raining or not raining. This contributed to the complete disintegration^P of the bicycle. The roads too contributed as well.

I would therefore appeal to you that the above matter be given serious attention even before the Directorate meets.

Thanking you in anticipation.

Yours in the year of the Cadre!
