Dear Maarten,

Thank you very much for your quick response to my inquiry. It is good to deal with someone who is concerned about the development of Somafeo!

I would like to confirm a few details about the videos before placing the actual order.

Our intention is to place a screen and a recorder at about six (not four as previously calculated) different places at Mazimbu. We would like to be able to show video cassettes with both PAL and NTSC systems at all those places, because we are getting cassettes as donations from both US and Europe. Did I understand correct from your letter, that for that purpose we would need six AKAI recorders, to be able to show the NTSC cassettes? Can the Samsung screens be used for showing NTSC cassettes (we have some screens that cannot be used for NTSC)?

If the answer is yes to the above questions, would the cost be as follows:

7 AKAI multi-system VHS recorders à 1200,-	8400,-
6 Samsung CB-536 ZSE TV sets à 600,-	3600,-
Cables	200,-
Transport and transport insurance	600,-
Handling	600,-
	<hr/>
	US \$ 13 400,-

After receiving the clarification for the above (hopefully as quickly as last time!) we shall place the order and give you exact information about the payment and shipping formalities.

Thanking you in advance,

Marjatta Lahti
