Dear Mr. Sisulu:

I have been diligently promoting travel and business development in South Africa exclusively. The success of my actions moved me to create in 1992 African Heritage Tours (AHT). And now I, James C. Mays, along with 2 other principals, Thomas N. Lee and Dr. Phil C. Robinson have developed this organization. Collectively, we have over 50 years experience in the travel, entertainment, education and business development industry.

In relationship to our total commitment, African Heritage Tours are dedicated in the economic empowerment and the development of the Constituency of Africa. Our organization are regular sponsors of American Business and Investment Tours to South Africa. Our goals include helping to facilitate and construct the "Bridge" that will be needed to bring the two cultures (American and South African) together.

Our most current efforts involves a South African Company (The Lustre Group of Diamond Companies) and the development of a Tour / Trade mission for approximately 50 American Based Diamond Merchants. This event will allow coffers as tourist in addition to purchasing gold and diamonds as merchants. The scheduled date for this event starts with 8 September and ends with 15 September.

In addition to the business itinerary, we have designed a "Special Introduction" for this group, to the natural beauty and the warm people of South Africa.

A special banquet has been planned to honor this event, along with the many accomplishments of the ANC and its contributions to the birth of this new democracy. We would be most grateful if you would accept our invitation to speak at the scheduled banquet in Cape Town. However, if the date isn't convenient for you please review the enclosed suggested alternative dates. We also included a copy of the itinerary for your consideration.

Mr. Walter Sisulu

Finally, we are bound to assist in the economic development of South Africa. We have other plans that are being developed as I write this letter, that we feel a major role in assisting you, President Mandella, the ANC and RDP in the development of a South Africa for the deserving peoples.

To confirm the speaking date or to answer any questions please call me at 313. 863.2755 or fax 313. 345. 2600.

Again thank you very much for your continue support and we look forward to help developing the new South Africa.

Very Truly Yours,

James C. Mays, President
African Heritage Tours
