J.P. - Late arrivals.) Apologies - Lulama.

①. Role of committee - discussion ensued about reps. visiting houses regularly. Made clear that role is not to pick the house to bits - but to avoid flagrant abuses of hygiene and ANC Property. Also to consult + meet on a neighbourly basis.

③ Keys - suggested that cdes. should have a choice about leaving ones keys. Is it compulsory? if it is, resolution carried by ~~the~~ meeting to go to complex ctee that keys should only have to be handed over if the room will be left vacant for more than one week. If keys are handed over voluntarily for a shorter period of vacancy then the prescribed dates MUST be kept to. Residents should not have to return to find their rooms still occupied!
Point made that ones room is private + should not be entered without the residents permission.

④ Students + ~~indiv~~ → the results of discussion from ctee meeting 3 held on 2-1-84. Basically up to residents to discuss together the rules for the house. Disagreements where individuals are at loggerheads should be arbitrated by area rep. who can resort to ctee → to complex ctee → Director - depending on seriousness. ~~Exm~~
