Cde Thuli,

On 2/2/90 you were a leader and representative of the Dakawa Women's Section (I suppose) who accompanied the remains of the late Cde Eusobia. I was shocked and disappointed when I received the bill from Gogo Hotels where the mourners were accomodated. From the enclosed bill it looks as if what was intended by the African National Coong'ress to be a mourning ceremony turned; out to be a . celebration party as supported by the photocopy of the bill showing the amount of liquor which the party consumed. From information recieved this was not the beginning. Apparently it started With some bottles of sundowner and beers bought I from the tuckshop in Mazimbu.

Personally I view the whole matter very seriously and Iam sure Iam not alone in this view.

(1) Generally South Africans are a religious people, and you are aware that the A.N.C which had lost one of its cadres deeply respects this view, hence it has also a Department of Religious Affairs and therefore having liquor during; such times is adding injury to

It is no coincidence that some of the leaders of the ; ministers of religion.

11.0 have been

(2) You know very well that the A.I'I.C does not pay bill for liquor and. there is no exception to this rule.

I therefore appeal to you to settle/pay the enclosed invoice of T311 9 430.00 (which the A.N.C. is not prepared to pay) cut of you: mm pocket.

I take this view from the fact that you were the leader of the group and I am sure this 22150 happened in your presence and therefore you should have Stopped it.

, Yours in the struggle
