Report by Mpho Mvulindlela.Iwasx

I was in love with David Dumise since last year December, so we have problems during our affair. We failed to overcome these problems. Instead he suspected me that I'm in love with Victor Medise, and by then I was not in love with him. So there was no peace at all. In that process of misunderstanding he beat up, insulted me but I didn't bother it. It happened that David called Victor and talked to him, well I was not there, after that David told me that, he's denying that he's in love with me. So for that time it was solved.

One day in the morning round about ten a.m. David came from work with white container he was driving a motor-bike, I was still wearing a night dress preparing feed for my kid levey. I was holding a kettle with boiled water, he decided to kick that kettle and burned my hand, after that he claped me, I felt dizzy on the sport. Then I held my child. BY then he was holding a white container in his hand. He said he's going to pure me with acid, then I said if you want you can kill my child first so he failed to burn me because of my child. So he decided to burn my clothes with that acid. y clothes in the walldrope, he took these clothes out and burn them. So as a humanbeing I can't stay with such a man at all. I've took the decission and it was bad for him. He was bussy following me. So i've decided to fell in love with Victor Medise not because he was suspecting but because I love him and I love him.

Last week on Tuesday I was in rehearsals. When I came back Veronica Pharasi told me that Victor is admitted in hospital and i didn't believe that until I went to hospital. I asked him what happened. He said he was from my place going to Cooper's place. When he was in the circle was beat with a bkeak at his stomach and he fell down so he didn't see the particular person who did that.

In my mind there was this thing of David the time he wasx fetching his clothes from me He said between me between us witch means between me, and Victor and him. He's going to end up six feet down. Even after that he came to fetch lumber jacket. I was talking to him normally, he said why i'm so hush to him. I didn't answer him because he was trying to proveke me. Then he said he can do anything to me and know the one whose going to say a word to him. He's not afraid of anyone. He kne very well i'm in love with Victor and he still have these ejurdes of talking anghew with me. I don't say he dees that thing but he is a suspect. He was telling people that he going to deal with us. For example he told Jamina Khuzwaye that he going to stabbus with a knife So many people suspect him because of his talks.

re: REPORT

It was on a sunday afternoon on the 17th August 86 when I was send to help the old man who had an accident that same morning. We went together with him to the police station, ~~and~~ and we left him thre, and preceeded to Mazimbu to report about the accident. We met Cde, Khuzwaye at the gate and we reported and went back to town, since we met some Cdes from Dakawa who had ask for a lift to DAKawa after our work. I was supposed to pick them up at Seda baridi but the two Cdes who were there there said one Cde, who is also suppose to go also asked to be collected at a place were they sell a beer for 25/-

It was unformnate enough that immediately parked Cde, Banda together with the Cde, Commissar met us there. I waited for about 5 to 10 minutes for Cde, M khululi to fill his 5litres with his beer. We left immediately to Dakawa after that.

S. Metha,

30/09/1986

On Sunday the 28th of September, 1986, I got a lift from comrades Martin and David, it was at about 9.00 hrs in the morning. I was at the guest house when they were going to town I stopped them and asked for a lift, and as I got in the car I remembered that I had forgotten my permit, so I asked my younger brother to bring it for me. Instead of bringing the permit he brought the whole envelope to me, I did not give him back since Martin was in a hurry to take some comrades to the bus station (they were going to Dar), and that explains as to why the envelope was in the car.

We dropped the comrades at the bus station then went to see comrade Bentry we picked him up and went to a party in front of Sapna. At the party we had two beers each, then came home at about 9.15 hrs (p.m).

When we reached the gate we were told to park the car in the process I forgot the envelope in the car. That is what happened on Sunday the 28th of September, 1986.

I came from Dakawa on Friday the 26th 09. 1986 to collect the monthly wages and the Mia Mojas for Dakawa.

On arrival I was told that I would get them on Tuesday the 30th of September 1986.

And when we reached Bentry's place Martin and David were sent to get some honey beer while I waited for them there they got a few then we went to the party which only started at about 6.00 p.m.

re: DAVID (What happened on the 4th of October 1986)

At 3.30 pm I went straight to Luanda and I stayed in Luanda up to 10pm. In Luanda I was together with Bizzah, Martin, Joyce, and Themba. Themba and Joyce left us at about 9.15 for Youth Centre. I left Luanda at 10.00pm to go and collect my earphone, when I arrived at the Youth Centre I found my roommate Metsamai who is working at the Farm. Cde, Leberu arrived at the time and told us that comrade Victor was hit by a stone but is not known who hit him. I laughed at the matter because I thought it was a joke.

Later on Harold told us that Victor was hit by a stone. I did not comment at the time. At the time of the incident I was not even at the Youth Centre. I did not injure Victor and I never had any quarrel with him, although some people are under impression that I did it. At one time I did threaten Mphe and told her that one of us will die i.e. myself, herself or Victor.

I was in love with Mphe before but Victor took over. I did not interfere with their affair. There was no need to quarrel over a girl.

I questioned her about it before but she kept on telling that Victor was just a friend and I told her that that type of friendship does not satisfy me. I called both of them many times to talk it over. Mphe ~~AA~~ told me that we better part and I agree. I told British about the whole affair. Mphe was also present at the time.

On a certain day I decided to take acid from the Garage with the intention to go straight to Mphe's place. The reason was that I intend to destroy the clothes which I gave her e.g. canvas shoes. When I got to her place I found her outside with a bucket full of clothes. I threatened to throw the acid at her and she blocked with her baby. I then threw the acid on the clothes in the bucket, I told her that I did not care I could go to Botswana.

She was wearing a skirt at the time and not a bermuda as she claimed.

I discussed it with Mphe sometimes after the incident. I wrote a letter to Botswana and I even told Mercedes who is in Zambia at present asked for clothes to replace Mphe's clothes. The incident happened about a month before the Education Conference. At the time I was working at the Garage.
