RREPORT ON VISIT TO COPENHAGEN.

The visit was very successful, though the ï-\201ehia completely boycotted us. The .

hally was reported both in the newspapers, radio and television, but we did ,

not feature. Ti is only the communist newspaper, which on seeing-. that no news-- 15

-

paper had reported on us decided to make a feature on us, on-the tuesday after i'

the rally was held.y This is despite the fact that a-journalist from the natioâ\200\224.

Vnal television hadfoome to interview me. Later, I was made'to understand that

he also writes for the biggest cihculatioh Paper in Denmark and that he is sym-il

â\200\230,;:Tâ\200\235

'pathetic to the'Afhican National Congress.

f

,

'1

The explanation given was that there was a lot of internal movement and Jockeying9aPOUnd the country, because the parliamentary elections were to be held on the 10th of May.

i

1

1

â\200\231

A

Nevertheless, the rally will remain memorable for two reasons.

.

,

~

,

1

,

V

.

Â»

1

(a) It was the first May day rally that was attended by leaders of all the main opposition parties, that is, including the Social Democrats, the Socialists as well as the Euro-Communists.

1

-

(b) It was the biggest May day rally that could be remembered in the history of the country, This was because all the previous May day rallies were sectarian with each party or trade union having its own meeting. Even on this occasion they first

\

.

'1

â\200\231met at their own centres, and Only later walked to the grounds where the main rally was to be held. â\200\230

';

1

The only two meetings that were held outside the rally were between the Communist Party and the ANC and the one between the ANC and the Danchurch Aid.

The Danchuroh Aid confirmed their approval of the request that;the DMD had made to them towards the end of 1987 for assistanoe in the following:

.  
.

(a) For a seminar to be held in Harare for aproximately 20 - 40 participants ;

â\200\231

v,

mainly from inside the tountry to discuss

cooperation between'the ANC outside

and the MDM on the questioh of upgrading and placement f0? experience.

(b) for intership of 15% 20

graduates in the ingeneering fields in the Frontâ\200\224

line States.

.

â\200\234(c) For theprintingwofâ\200\230lecturesâ\200\231from the Zambia Natioahl Corresp  
ondence College.

( This however presents problems in that the ZNCC would prefer the material to  
\_be printed in Iusaka. H

â\200\231..

It would appear that one of the reasons why they took this sudden positive decision was that after hearing of the bill to stop funding from outside, the government decided to allow the Dahchurah Aid to send as much money as possible, into the country as possible before the Bill becomes law.

I  
The Chairman and Secretary of Dahchurch Aid told us that they were looking for ways of continuing to support projects in the country even after the Bill has become law: We told them that we believe that it is possible but that they should discuss the matter with the Treasurer General.

.

i  
The  
rally was attended by over 200 000 people but the money was not collected at the rally but was contributed by different trade unions. When the cheque was presented to me for an amount of 81 100 Danish Crowns, it was said it was for the work of the ANC in the mark. There I gave it to the Chief Representative.

V

I

\

I noted that the Anti-Apartheid Movement though small was quite active, and that the Chief Representative and the representative of SACTU are equally active and appear to be well known in political and trade union circles.

.
