Dear Comrade Marjetta, 6

Re: Eibrary Staff

I refer to your letter of 25 February, 1987 to comrade \$ikly about the library staff still needed. I am fully aware of the workload that is eYour sug' gestion to offset the shortage is trat at least two liorarians could come for solidarity work 6ulmil! their holidays in Llay-July.

Whilst this would be a temporary measure, the problem.would still be _ - with us. My long term sug'estion is that you should compile a full list of the library personnel, teking'into account our comrades on training. 'Spell out the urgently needed qualified staff.

',I would like to point out that the ?overnment is rather weary in granting work permits to outsiders, particularly When such skill can be obtained locally, In the case of library staff, they hlve quiet a number of perSonnel Without employment. This.being the case, it w0uld be difficult tor them to allow in a soli6arity worker for this type of work and I think this view from a realistic politiCal vi; w is reason-ble.

l, therefore, strongly recommend thlt you decide on how many trainee Alibrarians could We request from the Tanzahl9n JJibrary School for their practicals here in Mazimou.i The sooner l% come up lth the number all the better.: Shall I suga;_es t end of next week? l ' v ,l
