Dear Comrades,

Our student Rachel Tsoeunyane who is at present studying in Kiev has recently written to the Headquarters of our Organisation requesting that she be recommended to study Dentistry after completing her present course.

In her letter she states that due to her good performance, her teachers are also interested in her continuing her studies in the U.S.S.R.

From the above, the National Executive Committee of our Organisation accedes to comrade Tsoeunyane's request and therefore recommends her for further studies in the U.S.S.R.

Thanking you for the assistance that is always given to our organisation.

We remain,

Yours fraternally,

R. MOMPATI
