Ms Cheryl Carolus

ANC: Health Department

PO Box 61884

2107, MARSHALLTOWN 19 January 1994

Dear Cheryl,

We are pleased to clutter your desk with a report of a major study, conducted and written up by Dr Ros Hirschowitz, with my assistance. It is a draft report of a 1993 national survey of blacks' and coloureds' educational and occupational experiences and aspirations conducted for SACHED and the IEB.

The study was completed in mid-1993. SACHED will be publishing an abbreviated and less technical version, probably with UCT press.

However, the draft report teems with timely data, serious analysis, and recommendations. So we thought we should get it to you (or, more likely, your assistant or consultants) to use internally, without further delay.

Yours sincerely,

110.1101;

Professor Mark Orkin

Director
