ZAMBIA , me,

Telephone 72319

28th. Jan.;982

Dear Comrade Halume and Rodney,

I am writing to remind you that I would like your estimates of the goods that you think you will need this year-1982. Just the goods which you really need and the quantities required for each. This is just to serve as a guideline for me sothat when I requisition,I have an idea of your needs. Secondly I would like to hear that you are sending bales of used clothing to both Swaziland and Lesotho as agreed when I was there last time;

I also would like to know that every time you get goods in, you send me immediately a copy of the BL which must be clear sothat I can read what is on it. It must have the date the goods were received and initialed. If there is a foreign language description 0: the goods, please ascertain what the goods are and write it in in English.

All other goods from various groups must also be sent to me with the donos, the description of the goods and the Quantities clearly given. Also the date when these were received.

Please address logistical matters separately to me here in Lusaka. This in eludes all the above matters.

Hope all is well with you there and hope soon to see you again.

Yours fraternally,

1A :ng/b _
