Dear Steve,

I am enclosing a request to SAETF to support a visit to Canada by the ANC Youth Section and one member of the South African Youth Congress.

I should note one area of clarification for the proposal. The overall coordination for Western Canada is being done by the Alberta Youth Animation Programme on Southern Africa.

I would be grateful to hear soonest, the decision from SAETF so that the planning can continue on the basis of information about our financial resources.

Many thanks and hope to see you sometime soon.

Very sincerely,

Joan Anne Nolan

- the legitimacy of stepping up all forms of resistance to the regime at the present juncture.

- * To develop and strengthen existing links with youth and student organisations in Canada, and to establish new links, where none at present exist.

- * Creation of a multi-racial pioneer youth organisation for South African children in exile.
- * Developing solidarity and friendship links with youth in other countries.

The Second ANC Youth Section National Conference held in Tanzania in August 1987 noted ".....that, whereas numerous anti-apartheid organisations of young people and especially of students existed in Canada, and many of them carried out commendable solidarity work with the struggling people of South Africa, contact by the ANC Youth Section with these organisations has been minimal".

Conference resolved that this situation need to be redressed and that a programme be worked out aimed at reaching out to the Canadian Youth and students, and establishing solid working relations with them at grassroot level.

Subsequent meetings of the ANC Youth Section National Youth Committee resolved to send a delegation of three members to Canada as part of the implementation of this conference decision.

CUSO has been involved in working out a programme tour in Canada, utilising its contacts on Canadian campuses, amongst Canadian church groups and amongst youth and solidarity groups.
