TO WHOM IT MAY CONCERN

The African Artists & Listeners' Association (AALA) is a non-profit organisation which strives to promote peace and understanding amongst people of all races. It aims to not only improve the conditions in the music industry but also to utilise any available funds to assist the community as a whole.

I offer this project my full support and ask that you give any assistance possible to this worthwhile venture.

AIMS & OBJECTIVES

This association is formed by Artists and Listeners and directed by the community, with the expressed aim of addressing the needs and problems of the broader community.

The association will seek through the medium of arts and cultures to encourage equality and unity amongst all South Africans. A.A.L.A will also attempt to address broader socio-economic issues, e.g. victims of injustice and violence in our land. Families who have problems with getting information about relatives or friends that are missing, we want to assist these families by going to hospitals, jails and mortuaries in finding those people that are missing. We also want to assist the broader community in whatever way possible as and when the need arises.

A.A.L.A is a non profit organisation which strives to engender a spirit of mutual respect, tolerance and acceptance amongst different people through music by emphasising commonalities instead of exploiting differences of elements such as culture, beliefs and opinions. It also aims at improving the conditions in the music industry as well as utilising any available funds to assist the community as a whole especially the strife torn areas.

To all South Africans and sympathetic people inside and even outside the country, we ask for any assistance possible to help us promote peace and understanding amongst all people of South Africa.

A.A.L.A Would like to encourage and see more greater involvement of the broader community in A.A.L.A's activities as we are moving towards a brighter future of unity and peace in our country.

Yours Faithfully
