Dear firends:

We have learnt of the terrorist act perpetrated against the ANC (SA) Office in London, England, and join our voice with others in condemning it. Clearly it is part of the effort of the South African Regime to perpetuate apartheid and place obstacles in the way of the ever growing movement on a world-wide scale directed to put an end to this evil.

We are sure this act of terrorism will not deter your heroic struggle. Neither will it slow down the widespread opposition in Canada to apartheid.

Be assured of our continued solidarity in your struggle which is at the same time the struggle of the peoples everywhere.

with warm fraternal regards,

Central Executive Committee,
Communist Party of Canada.
