 Dear Comrade Nfenyana,
 BEaTERMINAII'ION OF SELF)? CONPRKUPS.

Tie received your letter On the above matter. It was read to members of the management mittee on the 21st December.
 The letter addresses itself strictly to temination of contracts, to Ihieh the Management Committee fully agrees. It is only logical that if our settlement an are closing with immediate effect, than the personnel must be reduced accordingly. Ameeting of all those who have signed oantmctas is being organised for the 27.12. 9'
 But, ve doubt if the MC will-be ln _az,poeition to .aznsvezc questions from the contracted personnel those contracts are heingmteminated. We would. appreciate it therefore, if the Task Force could pmvid. answers to the follovlng (mastic. before the 27.12.913- -
 1. Hill the people whose contracts at being terminated, be paid. their galaxies on the day of termination or not. If not, then we need to know long till they have wait.
 2. Re need. to have the list of those being asked. to remain for the winding up period, if poei'ble, before the temination of contracts, for the NC to how which children must be withdrawn from private schools and for people to make plans for their repatriation.

Your speedw response to our letter will be highly appreciated.

Yours faithfully,
