Glasgow City
Fax: 0944 41 2275455

Dear Mr Fairley

Re; BMW

Professor Padayachee is the Medical Officer of Health for Johannesburg and Executive Director, Health, Housing and Urbanisation for the City of Johannesburg. He will be visiting your city next month with a view of looking at your health promotion programmes.

Like all aspects of South Africa the City of Johannesburg is undergoing major social and political changes especially in the as yet unresolved areas of democracy and community representation. 2

Professor Padayachee himself an ARC member has been instrumental in introducing amongst others some of the progressive programmes especially in the field of Primary Health Care and Community Participation.' However his visit is not seen as opening international linkages for the City of Johannesburg as it is presently constituted.

Kindly accord him the hospitality possible within your powers.

Yours sincerely

QQMW _

DR RALPH HGIJIHA
