â\200\230But the standing of the National Party is not very high either. There is a lot of distrust, even if there is 2 more positive attitude to individuals like F W de Klerk

â\200\234There is also understanding that the ANC needed to act as it has. Businessmen convey to us that they want the solutions to be as peaceful as possible that they

Comfortable

Mbeki describes the failure of labour and industry to reach a pact to avert next month's general strike as â\200\234unfortunateâ\200\235 South African business he says, does understand that there are grievances

â\200\230Part of the problem, though is that some of them now claim that they are not political, that they don't want to get involved

those summits with P W Botha, where they more or less got what they wanted, Now that has changed and there is resistance, An agreement between Saceola and Cosatu could have made an important contributionâ\200\235

Foreign businessmen, says Mbeki, tend to take a longer term view of the situation than their South African counterparts. â\200\234They have a basic concern about the speed with which we are moving, more than a concern with what is happening, day to day.

They were a lot of experience  
Codesa 2 would

produce an interim government, and 3 number of corporations were standing by to make announcements about involvement. Once Codesa failed, they held back

â\200\234An interim government is important because it would signal that the process of changing the political-power transition in South Africa started, that the country is no longer simply ruled by a white

minority government as of old

There are 2 very serious concerns

about the levels of instability that derive from the absence of a political settlement.â\200\235

instability, some would argue, will also derive from mass action, "It is unfortunate that the scenario has been portrayed in this way, that mass political action equals violence and unrest. It doesn't

"What all of us should be saying is that we have the civil liberty to express an opinion by meetings or marching in the streets. In that context we call on everybody to behave themselves. But saying that mass action produces violence simply justifies that violenceâ\200\235 Mbeki says

"The overwhelming majority in the country would have wanted a solution to our problems without the levels of conflict we have now. But we have a practical problem. The deadlock at Codesa did not occur between equal parties

â\200\234The Government were not a player and referee, it would not be necessary for us to have demonstrations.â\200\235

Looking at the international picture, it's clear that the view expressed by Foreign Minister Pik Botha that mass action must be in conflict with the

spirit of United Nations Resolution 765.â\200\234The matter did not even arise. There was no suggestion that peaceful activity of this sort must be stopped. Mbeki believes the ANC's shift into tough-talking mode

has not cost it support abroad  
â\200\234One must understand that in  
the rest of the world it is nor-  
mal to have peaceful demon-  
strations, it is not extraordi-  
nary to have strikes. You don't  
have this hands-up-in-horror  
attitude in South Africa

WILLEM STEENKAMP  
Weekend Argus Reporter

THE Inkatha Freedom Party  
has announced plans for a con-  
certed membership drive to re-  
cruit members in Western  
Cape.

Mr Nicholas Myburgh, chair-  
man of the IFPâ\200\231s Western Cape  
Regionâ\200\231s steering committee,

introduced members of the

steering committee to journal-  
ists at a small function held in  
a private house in Loader  
Street last night.

He said â\200\234white politicsâ\200\235 were,

of the past in South Africa. â\200\234In  
future there will only be a  
choice between the IFP and  
the ANC. And this choice is in  
fact very simple.

â\200\230â\200\234â\200\234People only have two  
choices â\200\224 they can have a  
Marxist-communist dominated  
alliance embodied in the ANC-  
/Cosatu/SACP group which  
wants total power, or they can  
choose the IFP which stands  
for a fully westernised democ-  
racy with the emphasis on free  
enterprise, a free market sys-  
tem and personal freedom with  
minimum state control.

â\200\234Our recruiting drive will be  
directed at all communities in  
the Western Cape. People have

leadership of the different political parties, be it the Democratic Party, the CP or the National Party.

People are crying out for strong leadership. They are tired of crisis-management by the government, they are tired of mass action and violence. There is no constructive leadership -and people want strong leadership. The IFP wants law and order and wants the violence to end.

Mr Myburgh said a permanent IFP office would be opened soon in the city centre. IFP branches will be set up throughout the Western Cape.

Mr Myburgh also handed an open letter, addressed to Mr Roelf Meyer, Minister of Constitutional Development, to journalists.

In the letter the IFP voiced its objection to the actions and statements by the government over the past few months which increasingly creates the impression that the process of

negotiation is' being conducted primarily between the ANC and the South African govern-

Whether it is being done as a result of the government's

exaggerated perception of ANC

strength or whether it is done to satisfy South Africa's so-called friends overseas, it will not make the slightest difference to the catastrophic end which the government is heading towards.

The IFP said there could not be a settlement in South Africa without the co-operation of the IFP. It would be very unfortunate if the government continues to ignore reasonable people who want to negotiate while simultaneously leaning backwards to placate those who are not in any case interested in a

negotiated settlementâ\200\235.

The time had come for the  
ANC to stop deceiving people,  
he said. If it was not interested  
in a negotiated settlement, it

â\200\234should come clean and stop.

misleading the publicâ\200\235.

THE Inkatha Freedom  
Party will next week  
launch its recruitment  
drive in the Western

Cape by staging its first

public meeting in the  
constituency of ANC MP  
for Simonâ\200\231s Town, Mr  
Jannie Momberg.

The newly elected  
chairman of Inkatha in  
the Western Cape, Mr

Nic Myburgh, said last  
night that it was signifi-  
cant that the IFP would  
launch its drive for new  
members in this region  
in an ANC constituency.

Mr Myburgh, a Swel-

-lendam farmer, was a

member of Dr Denis  
Worrallâ\200\231's now-defunct  
Independent Movement  
and a former member of  
the Democratic Party.
