Dear Comrades,

This letter is not only to thank you for the fifteen bales of clothing which we have just received but also to inform you of the pleasure we have derived from meeting our two comrades Connie and Hans Braam.

The clothing which was carried by the vessel "Amarante" which left Holland on the 28/6/77, were all in good condition and the comrades who were responsible for their collection commented on the very excellent manner in which these goods were packed - obviously a professional job! This is most important for all concerned as Connie will explain upon her return.

Our negotiations here in Luanda have been very fruitful and the two comrades most helpful and co-operative. Instead of being a rather arduous job, these have been a pleasure because of the eagerness and completely relaxed manner in which the two comrades have negotiated.

The rest of their stay in Africa should be equally successful and as far as our organisation is concerned, we will do our best to be of the maximum assistance to your representatives.

Once again thank you for your great support and be assured that it will be used to very good purpose by our organisation in the struggle for liberation which we are sure will be crowned with ultimate success.

Yours fraternally,

Wolfie Kodesh
