2nd April, 1979.

Dear Comrade Mhlophe,

Many thanks for your letter of March 9 in which was enclosed the letter from the International School in your City. I can understand the delay. There were no passengers coming your way and I was compelled to put it in the post.

I do not know as to whether I can have the Kuzwayo travel expenses readjusted. I shall try.

Jacqueline can now join us say by the end of this month on April 28 or so. She could come over earlier than that if her mother so desires.

Incidentally what students do we have either in Maputo . or across the fence ? We are more interested in those students between Forms I and V. That category constitute a priority for our school population and we should like to have them all before the end of the current month. Do let us know what the position is and, possibilities if any exist.

Please do find out from Comrade Alpheus and his colleagues as to who their delegate is going to be at our forthcoming Second Educational Council Meeting scheduled for April 12 to 21. It is essential that we have the names as soon as possible so as to enable us to make their travel arrangements timeously.
