Dear Jen'y :

I appreciated your "private lesson" yesterday and also your sending me further information today. PESF has been benefiting a lot from your wisdom. We will be able to interview Ms. "l'hembica.

Thank you for your suggestions.

Today I would like to inform you of a good story. You might know that we, PESF, have about 100 drawings/pictures drawn by the Open School and Art Works children. Some of our donors kindly held art exhibition to raise funds for us, exhibiting these drawings. One donor. Ms. Shishimoto, materialized two art shows a couple of months ago and reported us on how she had got interested in the anti-apartheid issues. Jerry, you inspired her: she was very much moved by your speech when you visited Hannan-Shi, Osaka a long time ago. Since then she had had a wish to do something for black people. After four years of time period she realized her dream: the exhibitions were successful and she was satisfied when she saw people being moved by the children's drawings. Wwww.gmmmmk

WW Maybe, a thousand. Orihara, Karma

and many many others are among them.

Koga-san, a licensed accountant, is coming to our meeting on the 29th of May to declare the audience that our book keeping' was inspected by him and that our financial report is correct. Just for your information, he will be in Tokyo till the end of this month. His present address is: 1-8-2-2F Nogata, Nakano-Ku (phone: 03-5 380-4565). His address after June 1 will be: C20 Osaka Catholic Shingakuin, 2-24-22 'l'amatsukuri, Chuo-Ku, Osaka (phone: 06-920-2202).
