UNITED ACTION

FOR PEOPLE'S POWER!

.y Dear Comrade ,

We are endeavouring to compile lists of well-known personalities throughout the world who are known to be sympathetic towards our liberation struggle and who could be approached in one way or the other to support the ANC in future campaigns whether these be political or financial.

These lists should apply to your particular constituency, but could apply universally as well, so that you should not hesitate to name any person or organisation even if you suspect they might be mentioned by others elsewhere. For example, you may have heard that people like Jane Fonda or Marlon Brando are sympathetic towards us and you are stationed in South America: don't hesitate to add such names to your lists.

In each case please state categories as suggested below. In the event of anyone not fitting into these particular categories, kindly note who they are, e.g. well-known financier or whatever. We especially want personalities with some clout -- whether it be locally or internationally. In other words they need not be particularly well-heeled; they may be famous but poor poets or painters or whatever.

The categories which should guide you are: Politicians; Trade Unionists; Business; Medicine; Journalists; Artists/Painters; Authors; Poets; Sports; Scientists; Music; Stage; Screen/Cinema; T.V. Personalities; Radio; and any other which you may wish to add,

Please let us have your lists as soon as possible, F.A.D. Wolfie Kodesh.

Yours fraternally,

M9414; KWU
