Our Ref:

26 June 1987.

Your Ref:

Circular Letter To ANC Missions.
.....

Dear Comrade *Salojee*

We are happy to inform you that the National Working Committee during its deliberations of 11/6/87 decided on the formal sitting up of the Department of Economics and Planning as a fully-fledged department of our organisation.

Our newly established department would like to get in contact with all ANC economists so that they may have an input in the very early stages of the work of the department.

We are also planning to hold an inhouse seminar for ANC economists towards the end of this year to work out research priorities and mechanisms to co-ordinate and harmonise research efforts.

We request your office to provide us with the names and addresses of ANC economists in your area. It would also be useful if the economists could write us and inform us about their fields of interest and competence, the research work they have already carried out, and publications if any.

Thanking you in anticipation.

With regards in the year of advance to people's power.

..... *Max Sisulu*
