WITHOUT HOMECOUNTRY PROJECT

The most important goal of the project is to secure the studies of four scholars.

Wandile Nkankula, who came to Finland in October 1985, is studying adult education at the University of Tampere. This is his third year there. During the summer 1988, Wandile studied at the summer university and worked in Raahe for four weeks. Wandile has now ~~57~~⁶⁰ points out of 160. He'll probably get his degree by the end of 1992.

Gerald Mohlala came to Finland in October 1986. He is now studying his second year at the Department of Education (University of Jyväskylä). In the summer Gerald was employed by development aid organizations in Sweden for six weeks. During his first year of studies, he passed 14 examinations (the average is 20 - 25). Gerald will probably get his degree in 1993.

In October 1988 he passed the great examination, so called "approbation".

Cynthia Boom came to Finland in October 1987. Last winter she studied Finnish at Viitakivi International Centre. She took an intensive class of Finnish at the University of Helsinki in June and spent then two months in the USA. In the beginning of September Cynthia started her studies at the Department of Education (University of Jyväskylä). This is her first year there, *and she passed her first examination in October. She will probably get her degree in 1994.*

Barney Mogane, who came to Finland in October 1987, has also studied Finnish at Viittakivi International Centre. In the summer 1988 Barney took an intensive class of Finnish at the University of Helsinki, worked on a farm near Kuopio for one month in order to get practice in Finnish and took part in an international course (two weeks) which was organized by Kesälukioseura. In September Barney started the compulsory practical training in computer field in Raahe. The theoretical studies of electronics will begin in the fall 1989, *and he will probably get his degree in 1993.*

The sponsors are very satisfied with the results of all these four students.

Helsinki 17.11.88

Helena Keltanen

ANC STUDENTS STUDYING IN FINLAND

Name: Wandile Nkankula
Arrival in Finland: October 1985
Course: Masters in Adult Education
Institution: University of Tampere
Progress: Has achieved 60 out of a required total of 160 points.
Exp year of completion: 1992

Gerald Mohlala
October 1986
Masters in Education
University of Jyväskylä
Second year of study
Expected to complete in 1993

Cynthia Boom
October 1987
Masters in Education
University of Jyväskylä
First year of study
Expected to complete in 1994

Barney Mogane
October 1987
Technical level, Computer Engineering
Raahe Institute
Currently doing compulsory practical training and will start
theoretical component in August 89
Expected to complete in 1993.

Steve Bodipe
October 1986
Masters in Library and Information Science
University of Tampere
Completed 30 cr points of expected 160
Expected to complete in 1993

Jabula Madala
October 1986
Masters in Education
University of Jyväskylä
Second year of study
Expected to complete in 1993

All sponsors are reasonably satisfied with each of the above's
progress thus far and report no serious problems.

Mohamed Hussein
Chief Representative.
