Message

Dear Frette:

I am currently preparing a short briefing paper for members of Congress and others, that . will bring them up to date on where things stand with respect to the negotiations and preliminaries for the upcoming election. Except for the rwent announcement of an election date

of April 27th, most people here have simply lost track of the complicated issues and agreements

that are the focus of the negotiations. Do you have any documents that you could fax to me that

would assist me to eXplain all of the pertinent issues and the current state of the agreements. I

hope to have the brieking paper tiuished by the end of the week, so I hope that you have documents that can be faxed to me.

Thanks for your help. ---Gay
