Dear Dr Ginwala

WORKSHOP ON TWENTY-TWENTY

Date: Tuesday 8 February 1994

Time: 16:00 to 19:00 hrs

Location: Delta Environmental Centre,

Victory Park, Johannesburg

Over the last few months, the Institute of Natural Resources has been pursuing a project called Twenty-

Twenty, aimed at defining critical actions by which South Africa might move toward a vision of

environmental sustainability by the year 2020. The objective of the project is to develop a presentation

aimed at influencing future leaders and decision-makers.

Contributions to the project have come from a variety of sources: a questionnaire to a spectrum of

individuals and organisations, specialist input in a number of fields, a literature survey, and guidance

from a team of forward-thinking South Africans from a variety of backgrounds and experiences. From

these, we have developed themes around which the presentation might be structured.

Three workshops are planned for February 1994, in Durban, Johannesburg and Cape Town to provide

feedback and seek further input into the presentation. We anticipate the workshop will last about three

hours; refreshments and snacks will be provided. We would be honoured if you would join and

participate with us on the above date. Supporting documentation will be sent to you a week in advance

of the workshop, if you are able to accept.

Please confirm your ability to attend by Friday, 21 January 1994, either by telephone to (0331)

68317 or by fax to (0331) 68891, attention Ms Tanya Ellis.

If you have any questions, please contact either my colleague, Dr Cally Henderson, or myself at the

same numbers. We look forward to seeing you at the workshop. '

Yours truly,

WM

Prof Dan Archer
