Dear Cde. Cyril,

re : MurderZAssasination L Kush Ramgobin

My son Kush, was killed by "a gunshot wound " on the 16th inst.
The circumstances surrounding the killing point out that robbery
was not the motive. I have drawn the attention of the investigation
officers to several issues that substantiate my perspective. Among
these are :-

1. Statement made by one of the two intruders to the
watchman, who was in the house - " You Pondo, you
protect these Indians.t

Times of entry into local police records, the time on
the record of the paraedics, leave much to be
desired. Evidently the time recorded by the part-
edics is 4:15 a.m, and the time recorded by the
police is 4:17 a.m.

The local Verulam police who told me personally at
site of the assaeination that "the helicopter" was
the way. More than half an hour later an ambulance
arrived.

The bullet head or cartridge, whatever they are
called, is still not found by the police.

An assistant - domestic, slept through the entire
incident in the adjoining room.

There were many more valuables in the house which were
untouched. Gold items were left, silver-ware costing
thousands of rands were kept in a room adjacent to my
son's room. were untouched.

The filing cabinet was untouched.

COHQAH

8. My daughter's room was roughed up, but no item to the best of my knowledge was taken.

9. On many days of the week the house remained unoccupied between the hours of e- 1 p.m and 5 p.m.

The louvered window that was used as "the point of entryh could have been used on any such afternoon.

These are some of the reasons why I am of the opinion that the motive of the killing was more than robbery. I am prepared to discuss this with any party to establish the truth, whether it is the TEC sub-council on security or even the Goldstone Commission.

I acknowledge, with hope and thank the TEC's recording of Kush's death and its sympathy per letter to Ela, Kush's mother.

With kind regards and yours in PEACE
