Dear Mr. Tetelman

I was happy to receive yours of 17.12.92 and to learn about your interest in the Eastern Cape in general and Cradock in particular.

Your meeting with Professor Colin Bundy should indeed have inspired you to concentrate on the area for your doctoral thesis. Colin has written a lot about happenings in the Eastern Cape - Rural and Urban. Another Researcher in the Department of History did considerable research on the earlier periods and published a book last year. I understand he is working on a second volume. He is also your countrymen, Professor Clifton Crais.

Incidentally I am also working on a Project which covers the whole country but especially focuses on the decade of the 1980's when the eye of storm was in the . Eastern Cape. My study will also take into account the role which Matthew Goniwe played in it all.

I'll be most happy to assist you in your efforts. I will appreciate any additional information on your project as well as your background.

Yours sincerely
