MEETING WITH Eggs 23 12 91

Present: Jim Hart - Deputy Director

Geoffrey Stokell - Finance

Zwelakhe Mankazana

Mohammed Tikly

A. ARCHIVES PROJECT

This was a follow-up meeting to the one with John Pampallis and Sinnika Sipila.

TCRS recommends that the ANC should pack the documents and museum items. If not, they will contract AMI or Interfreight. The container should be fumigated. A proforma invoice for US\$7,500 was handed to us for submission to the Finnish Library Assistant.

B. NOD

. TAS 7 million to be account for. Zwelakhe has the breakdown.

C. DANTQAZDanchnchaid

1. Previously Danida funds were spent mainly in Denmark. Up to 90% of local costs were for clearing/forwarding. Now, there should be a similar system as NOD, ie., TCRS will advance to the ANC supplier against a local purchase order.

2. TCRS recommends we should proceed with the erection of the Steel Machine Yard because only a slab is required for the frame, trusses and roofing sheets which are already at Dakawa. Check Danida budget for 1992. NOD might provide assistance.
