Dear Comrade ,

I write to request that my present World Health Organization scholarship be renewed for two more years . During this academic year I will complete all my course work as well as my clinical practica . Next year (1987-88) I will be working on my Ph.D dissertation , after which I will spend a year doing my internship . My present scholarship is valid only until the end of this academic year (i.e. 1986-87) .

I will highly appreciate your support in this regard since I will find it difficult to complete my studies . The WHO head quarters will await for your approval before they can extend the fellowship beyond this academic year .

Thanks for your support.

Your comrade in the struggle .

Amandla ! Matla ! Power to the people !
