Dear Cde Makopo,

DAKAWA VTC

Your telex of today has just arrived. Thank you. Before we can send you a letter of application on behalf of all ANC applicants who wish to enrol at the Dakawa VTC, we need to know precisely the courses available and the levels of courses. What will be most helpful will be to receive a prospectus of the VTC, so that we know what courses are provided, what basic qualifications are required, what the fees and other costs will be, when courses commence, etc.

Without this kind of information, it will be difficult to recruit students or prepare a proposal for donors. It will be useful if you could send the information before the end of October.

As regards the Helena Laukko Report I appreciate your brief comment about it being based on rumours and not fact. A formal response from you will be very useful to counter the negative reflection the Report conveys about the ANC. Your statement should also convey the comments of the new VTC management. With thanks and appreciation for your continued efforts at Mazimbu and Dakawa.

Yours sincerely,

Mohammed Tikly
